## A seminar on the occupation law and Israel's Military courts

There are two separate judicial systems functioning in Israel and the OPT. The first – the official judicial system of the state of Israel, based on parliamentary law; The second – the military judicial system overseen by the IDF and the Civil Administration in the occupied territories, and founded on the Emergency Laws dating back to the time of the British Mandate.

Due to the existence of separate court systems, and of the different law codes – the manifestation of justice, the severity of punishment and the effectiveness of enforcement are determined by the nationality of the accused – Israeli or Palestinian.

The impact of military law, military courts and prisoner related issues

on Palestinian society can not be overestimated. The resolution of issues related to the Palestinian prisoners composes a fundamental element in any future solution regarding the conflict – thus, the destiny of the prisoners is highly pertinent to the Israeli public.

The *Apartheid Law* seminar offers a unique opportunity for lawyers, law students, media professionals and political activists to hear first hand accounts and analysis from the predominant figures in the field.

We believe that the cooperative investigation of the Apartheid law – an issue which has been absent from public discourse in Israel – will consequently lead to public discussion and to civil action.

The seminar is a joint initiative of the Legal Collective, the Alternative Information Center and will take place at Daila., Shlomzion Hamalka 4, Jerusalem  
10 NIS recommended donation per session, additional contributions will be gladly accepted.
